Washington, DC 20554

Dear The Federal Communications Commission,

I am a student at a small school in the middle of kansas. I use prepaid wireless because its the only plan i can afford and one of the only ones available. I use it only for emergency. Some situations the cell phone saved me from much trouble and i couldn't imagine straying far from home without it. Increasing the rates would only force people like me to not be able to afford a cell phone and this puts us in many risky situations un armed.

If people used money WISELY we wouldn't be in this stupid situation with the economy.

Be smart.
Keep the USF Fair!

Sincerely,

J C
